PROFILE

I am a passionate software developer with experience in working with various frameworks, specializing in Game Development (Unity) and Back-end Development (Node.js). and continuously expanding my skill set and knowledge base.

As an active team player, I thrive in collaborative environments, contributing effectively to achieve collective goals. Currently, I am pursuing my studies in Computer Science at Mansoura University, furthering my understanding of the field and embracing new opportunities for growth.

WORK EXPERIENCE

Logistics Member

MEGA MU

2022-present

- I have been a logistics member at Mega MU Team since my first year in college, where I have learned a lot about teamwork, communication, critical thinking, and event planning

Game development mentor

MEGA MU

2023-present

- I am currently a mentor at the Game Development Circle in MEGA MU, a volunteering team at Mansoura University aimed at acquainting new students with technical and non-technical skills.

Gameplay programmer

2023-present

Alharbi studio

Remotly

- I am currently working remotely with Alharbi Studio, which is a game development studio, as a gameplay programmer.
